

Panel Mount PCB Fuse Holders

The PTF family of printed circuit board, panel mount and in-line wiring fuse blocks are designed to handle the miniature glass fuses. These fuse holders are available in open clip styles, horizontal mount open clip styles with covers, and the popular silo or cylindrical type, where the cap serves as a fuse removal tool. These low-cost fuse holders have UL, CSA, and IEC approvals and are molded out of a UL94V0 polyamide material.

SPECIFICATIONS

Housing Material: PBT UL 94 V0
 Housing Color: Black
 Clamp: Nickel Plated Brass
 Class: PC2
 Nominal Current: 6.3 A
 Voltage: 250 V
 Operating Power: 2.5 W
 Contact Resistance: < 5 m Ω
 Insulation Resistance: > 10² M Ω
 Dielectric Strength: > 3000 Vac / 60 "
