Suggested Replacement: No replacement

Panasonic is a global manufacturer of electronic components including many ceramic products. Current business conditions, combined with our mission to continually provide value to our customers has created the need to restructure our ceramic business, with the objective of increasing sales through new product growth strategies. As a result, Panasonic is refocusing to core competencies within our ceramic product group, and has elected to discontinue its EFO Ceramic Resonator Series.

There are no direct replacements for this product.

Affected Products:

Ceramic Resonators
